

The Only Artificial Dog Grass Made by a Pet Product Company

PupGrass®
ARTIFICIAL GRASS BUILT FOR DOGS

For Cleaner Healthier Dogs

Pup-Grass® is Certified Lead Free Synthetic Grass Built for Dogs, and features a rapid flow backing, designed to drain instantly and repel moisture. The yarn and backing contain antimicrobial for easy clean-up. Our high-quality, durable synthetic grass was designed especially for use where dogs live and play. The height of our grass blades are designed to enhance drainage and removal of solids. Pup-Grass comes with an Eight Year Warranty

Pup•Grass® Applications

Dog Parks • Commercial Kennels
Doggy Day Care • Roof Top Potty Areas

Pup-Grass® is durable enough for commercial and residential installations. Pup-Grass offers a lush appearance, with easy maintenance.

Maintenance

Pup•Fresh™ Odor-Absorbing Artificial Grass Infill

Pup-Fresh is an all-natural, non-toxic composition that neutralizes odors caused by urine by preventing the formation of ammonia that causes the noxious odors. Pup-Fresh will eliminate virtually all odors from accumulating on your artificial grass products.

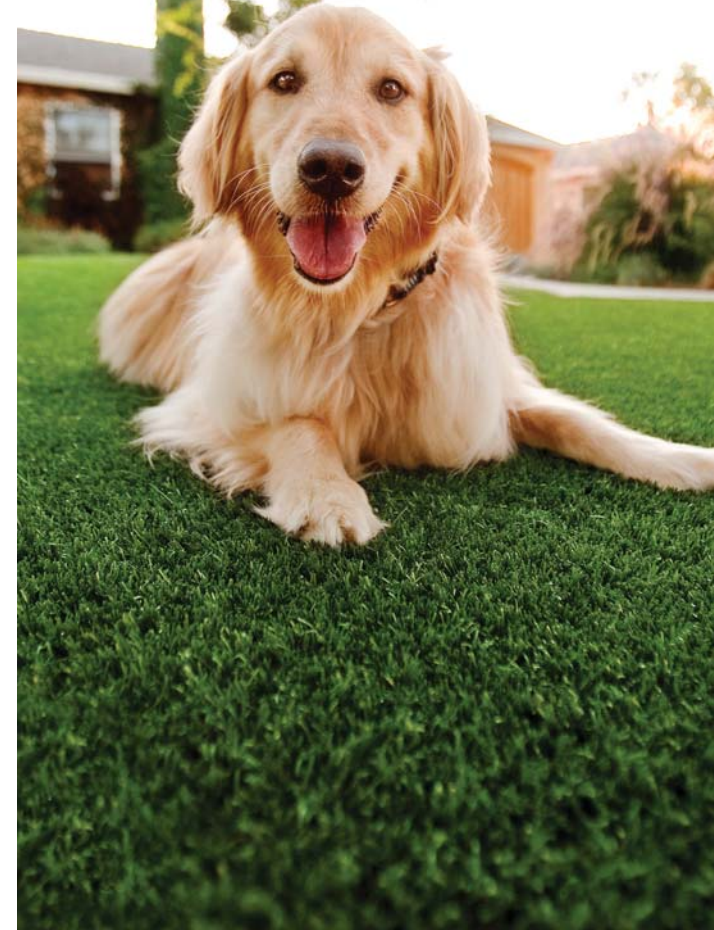

Pup•Zymes™ Stain and Odor Eliminator

Liquid Concentrate
Removes Odor Instantly,
Even Skunk Odor.
Removes Stains From
Carpet and Hard Surface

Professional Strength 12-to-1 concentrate.

PupGrass®

ARTIFICIAL GRASS BUILT FOR DOGS

The Difference

Pup-Grass® is designed with a unique woven backing for that provides instant drainage of liquid waste over the entire surface area. The industry standard backing for artificial grass is a heavy rubberized urethane coating. Holes are placed every 6". This system requires a large volume of water for the drainage holes to become effective. The result is urine becomes trapped between the blades and backing. This creates an environment that allows bacterial growth and unpleasant odors

The Coolest Artificial Turf Available

Artificial Grass absorbs heat and will become extremely hot in direct sunlight. Pup-Grass® brand artificial dog grass is 30% cooler than other types of synthetic lawns, because our unique backing does not trap heat, it allows it to dissipate which provides a significantly cooler surface.

Synthetic Grass Built For Dogs

Pre-Cut Rolls

For smaller projects use Pup-Grass pre-cut rolls to create a dog run or potty area in your yard. All you need is a cleared level area, free of vegetation and well compacted. Use turf pins or nails, and a utility blade for cutting and trimming. Pull the Pup-Grass tight so there are no wrinkles or humps. A great weekend project for you and your dog!

Pre-Cut Sizes
Pup-Grass is also available in smaller sizes.

3' x 5'
3' x 10'
3' x 10'

Full Rolls Available
in 12' and 6' Widths

Pup-Grass® Routine

1. Remove Solid Waste.
2. Clear Leaves, Etc.
3. Hose Thoroughly

Maintenance and Odor Control (as needed):
Brush in Pup-Fresh™ granules to neutralize odors.
Treat with Pup-Zymes™ solution as needed.
